

L. Y. Aaron Yung

Curriculum Vitae 

Observational Cosmology Lab, Astrophysics Science Division
NASA Goddard Space Flight Center
l.y.aaronyung@gmail.com | aaron.yung@nasa.gov
<https://lyaaronyung.github.io/>

PROFESSIONAL APPOINTMENTS

- | | |
|---|----------------------------|
| NASA Postdoctoral Fellow
Astrophysics Science Division, Goddard Space Flight Center
Greenbelt, Maryland, United States
<i>science advisor: Dr. Jonathan Gardner</i> | Oct 2020 – Present |
| Flatiron Guest Researcher
Center for Computational Astrophysics, Flatiron Institute
Manhattan, New York, United States | Sep 2016 – Sep 2020 |

EDUCATION

- | | |
|--|----------------------|
| Rutgers University – New Jersey, United States
Ph.D. in Astrophysics
<i>doctoral thesis advisor: prof. rachel somerville</i> | Class of 2020 |
| University of San Francisco – California, United States
B.S. in Physics (with Honors) and Mathematics (with Honors)
<i>double minor in Astronomy and Astrophysics, Summa Cum Laude</i> | Class of 2014 |

SCIENTIFIC INTERESTS

I am an expert in using semi-analytic methods to model the formation and evolution of galaxies and quasars in the early universe, as well as their subsequent impact on the reionization of the intergalactic hydrogen and helium. My prediction work is published under the banner “Semi-analytic forecasts”, which delivers a wide variety of predictions for high-redshift objects that are expected to be detected by Webb, Roman, and other observatories. I also work closely with numerous observing teams that utilize Hubble, Webb, and ground-based instruments, for which I supply physically-backed predictions crucial for survey planning and subsequent interpretations.

AWARDS & HONORS

- 2021 Richard J. Plano Dissertation Prize – Department of Physics & Astronomy, Rutgers
– given annually to a PhD graduate who wrote the best PhD dissertation in the past year
- 2020 NASA Postdoctoral Program (NPP) Fellowship – National Aeronautics and Space Administration
– extremely selective fellowship in recognition of highly ranked academic and scientific achievement
- 2014 Dr. Raymond Genolio Award – Department of Physics & Astronomy, USF
– award to graduating senior who ranks highest in scholarship in the Department of Physics
- 2012 Mike and Millie Lehmann Scholarship – Department of Mathematics, USF
– award annually to the most outstanding student in the Department of Mathematics
- 2012 Arthur Furst Undergraduate Scholarship – College of Arts & Sciences, USF
– award to a science student who demonstrates outstanding ability and passion to pursue research

GRANTS AWARDED AS PI

- 2021 *JWST* Cycle 1 – Constraining the Seeding and Growth of First Black Holes via Observable Signatures from the Early Universe (AR 2108)
– a total grant of \$104,327 is awarded towards FY22-23 research and collaborator travel
- 2020 NPP Fellowship – Semi-analytic model for high-redshift multi-messenger surveys and multi-instrument synergy
– a total grant of \$208,024 is awarded towards FY20-22 research and travel

SELECTED GRANTS AND OBSERVING TIME AWARDED AS CO-I

- 2021 *JWST* Cycle 1 – take part in a total of **6 approved GO/AR/Treasury programs**,
– including GO 1837, GO 2079, GO 2123, GO 2426, AR 2608, AR 2687
– totalling 401.6 (prime) / 191.5 (parallel) hours of observations
- 2020 *JWST* ERS Program – The Cosmic Evolution Early Release Science (CEERS) Survey
PI: Steve Finkelstein, 63.2 hours
– a grant of \$9,361 is awarded towards critical theory support work
- 2019 *HST* Cycle 26 – Photometric Confirmation of the Brightest Known Galaxy Candidate at $z > 9$
PI: Steve Finkelstein, 2 orbits

SELECTED EXTERNAL COLLABORATIONS

- JWST* Cosmic Evolution Early Release Science (CEERS) Survey Mar 2018 - Present
PI: Steve Finkelstein
Funded JWST Early Release Science program that surveys the high-redshift Universe. <https://ceers.github.io>
– **Catalog Architect** and **Dataset Architect** for the CEERS observing program
– **Group Leader** of the Simulation Science Working Group
– **Group Leader** of the Junior Scientist Working Group
– major contributor to the pre-launch simulations and data products
- The *Euclid* Consortium Jul 2022 - Present
An international collaboration in preparation for the Euclid, an ESA medium class astronomy and astrophysics space mission aims at understanding why the expansion of the Universe. The team is officially selected by ESA and is responsible for the scientific capability of the mission, the data production, and of the scientific instruments.
- Next Generation Deep Extragalactic Exploratory Public (NGDEEP) Survey Mar 2020 - Present
PI's: Steve Finkelstein, Casey Papovich, & Nor Pirzkal
Selected JWST Cycle 1 major public GO/Treasury extragalactic survey program. Deepest survey among all selected.
- PRIMER: Public Release IMaging for Extragalactic Research Oct 2021 - Present
PI's: Jim Dunlop & Garth Illingworth
Selected JWST Cycle 1 major public GO/Treasury extragalactic survey program. Largest survey among all selected.
- Ultraviolet Imaging of the CANDELS Fields (UVCANDELS) Apr 2021 - Present
PI: Harry Teplitz
The definitive extragalactic UV imaging of the four premier HST deep-wide survey fields.
- Experiment for Cryogenic Large-Aperture Intensity Mapping (EXCLAIM) Feb 2019 - Present
PI: Eric Switzer
NASA-funded line intensity mapping survey for CO and CII line emission from $z = 0 - 3.5$ galaxies. ([link](#))

The Isolated and Quenched (IQ) Collaboratory

Sep 2017 - Present

PI: Tjitske Starkenburg

The IQ Collaboratory aims to bridge the gap between simulations and observations of star-forming and quiescent galaxies to better characterize internal quenching processes. See <https://iqcollaboratory.github.io>

Roman Space Telescope Cosmic Dawn Science Investigation Team

Jun 2019 - Nov 2021

PI: James Rhoads

NASA-funded Science Investigation Team with objectives focused on studying the epoch of “Cosmic Dawn”.

Undergraduate ALFALFA Team

Aug 2012 - May 2014

The NSF-funded UAT is a consortium of 19 institutions engaging in an undergraduate research under the Arecibo Legacy Fast ALFA (ALFALFA) project, which aims to detect neutral hydrogen in the local universe by utilizing the Arecibo L-band Feed Array (ALFA) at the Arecibo Observatory.

PROFESSIONAL SERVICE

- 2021 - Present Extra-Galactic Science Interest Group – as part of NASA’s Cosmic Origins Program
- 2021 - Present Subject Matter Expert for JWST – NASA/STScI Webb Communication Team
- 2022 - Present Junior Member – the International Astronomical Union (IAU)
- 2019 - Present Member – the American Astronomical Society (AAS)
- Since 2022 Reviewer for astrophysics grant proposals solicited by NASA
- Since 2021 Referee for peer-reviewed journals – including *ApJ*, *MNRAS*
- 2015 - 2016 President – Graduate Student Organization, Rutgers
- 2013 - 2014 President – USF Astronomy Club
- 2013 - 2014 Chapter Officer – Mathematics Honor Society (IIME), USF
- 2012 - 2013 Vice President – USF Astronomy Club

TEACHING APPOINTMENTS

- 2014 - 2016 Graduate Teaching Assistant – Department of Physics & Astronomy, Rutgers
- 2012 - 2014 Teaching Assistant – Department of Mathematics, USF
- 2011 - 2014 Teaching Assistant – Department of Physics & Astronomy, USF
- 2011 - 2013 Observation Assistant for Astronomy – Department of Physics & Astronomy, USF

ADDITIONAL TRAINING & QUALIFICATIONS

- 2022 NASA ROSES Proposal Writing Workshop – NASA/JPL, supported by NASA Science Mission Directorate
- 2022 NASA Mission Concept Development Workshop – NASA/GSFC, New Opportunities Office
- 2021 “Share the Science” Media Training – NASA/HQ, nominated by NASA/GSFC Science Communications
- 2021 Machine Learning × Physics/Astronomy – Center for Computational Astrophysics, Flatiron Institute
- 2016 Certificate of Training in Physics Mentorship – Department of Physics & Astronomy, Rutgers
- 2014 Certificate of Training in Physics Teaching – Department of Physics & Astronomy, Rutgers

OTHER SKILLS & BACKGROUND

- Language Proficiency: English (Fluent), Mandarin (Fluent), French (Basic), Japanese (Basic)
- Scientific Programming: Python (Primary), C++, FORTRAN, L^AT_EX, IDL, MATLAB, Mathematica

CONFERENCE CONTRIBUTED TALKS

“Beyond semi-analytic forecasts, what physics do we learn from JWST observations?”

Aug 15–19, 2022 – Santa Cruz, California – 2022 Santa Cruz Galaxy Workshop (*invited*)

“Paving the way for JWST and Roman with Theory and Simulations” – Contributed Research Talk

“Paving the way for Big Eyes with Theory and Simulations” – NASA’s Hyperwall Exhibition Talk

“Quantifying Reionization with Roman” – Roman Space Telescope Galaxy Evolution Splinter Session

Session Chair for the Star Formation session; Chambliss poster award judge

Jun 12–16, 2022 – Pasadena, California – the 240th AAS Meeting

“Semi-analytic forecasts for JWST: mock lightcones and data release”

Mar 14–18, 2022 – Sesto, Italy – The Growth of Galaxies in the Early Universe – VII (*invited*)

“Paving the way for JWST and Roman with Theory and Simulations”

Feb 2–4, 2022 – Virtual – SAZERAC SIP: Learning the High-Redshift Universe

“Semi-analytic forecasts for JWST: Getting into position for observing!” – Contributed Research Talk

“Paving the way for Big Eyes with Theory and Simulations” – NASA’s Hyperwall Exhibition Talk

“Quantifying Reionization with Roman” – Roman Space Telescope Galaxy Evolution Splinter Session

Jan 9–13, 2022 – Salt Lake City, Utah – the 239th AAS Meeting – *cancelled due to Omicron outbreak*

“Lightcones for Roman Space Telescope & Simulated Observations”

Nov 15–19, 2021 – Virtual – Roman Science Investigation Team Community Briefing

“Semi-analytic forecasts: uncovering galaxy formation at high redshift with JWST and Beyond”

Jul 6–9, 2020 – Virtual – Summer All Zoom Epoch of Reionization Astronomy Conference (SAZERAC)

“Semi-analytic forecasts: uncovering galaxy formation at high redshift with JWST and Beyond”

Jan 4–8, 2020 – Honolulu, Hawai’i – the 235th AAS Meeting – dissertation talk

“Semi-analytic forecasts: high-redshift galaxy demographics and implications for reionization”

Jan 21–25, 2019 – Sesto, Italy – The Growth of Galaxies in the Early Universe – V (*invited*)

“Semi-analytic forecasts: uncovering galaxy formation with joint constraints from wide and deep surveys”

Aug 30–31, 2018 – Princeton, New Jersey – Workshop on *WFIRST*/LSST Deep Fields

“Semi-analytic forecasts: uncovering galaxy formation with joint constraints from wide and deep surveys”

Jul 23–27, 2018 – Noordwijk, Netherlands – ESA-ESTEC *JWST*/Euclid Synergy Conference

“Galaxy Formation in the Epoch of Reionization with SAM: Predictions for Upcoming JWST Observations”

Feb 4–10, 2018 – Aspen, Colorado – Aspen Winter Conference on Astrophysics: Cosmic Dawn

“Galaxy Formation at Extreme Redshifts: Semi-analytic Predictions and Challenges for Observations”

Jun 12–16, 2017 – Paris, France – Galaxy Evolution Across Time

“UV Luminosity Functions at $z > 6$ predicted by Semi-analytic Models and implications for Reionization”

Jun 20–24, 2016 – Paris, France – the 32nd Institut d’Astrophysique de Paris Colloquium

CONFERENCE POSTERS

“Semi-Analytic Forecasts for JWST: Uncovering galaxy formation with joint constraints from deep surveys & reionization”

Aug 5–9, 2019 – Santa Cruz, California – 2019 Santa Cruz Galaxy Workshop

“Semi-Analytic Forecasts for JWST: Uncovering galaxy formation with joint constraints from deep surveys & reionization”

Jun 24–28, 2019 – Paris, France –

CosmoGold IAP 2019: The golden age of cosmology from Planck to Euclid

“Semi-Analytic Forecasts for JWST: Uncovering early galaxy evolution in the ALMA and JWST era”

Jun 3–9, 2019 – Viana do Castelo, Portugal –

IAU Symposium 352: Uncovering early galaxy evolution in the ALMA and JWST era

“Evolution of physical properties & scaling relations for high-redshift galaxies”

Jul 15–20, 2018 – Kingston, Ontario, Canada –

The Physics of Galaxy Scaling Relations and the Nature of Dark Matter

“Semi-analytic forecasts for JWST Trilogy”

Jun 18–22, 2018 – Strasbourg, France – Rise and Shine: Galaxies in the Epoch of Reionization

“Constraints on First-Stars Models From Observations of Local Low-Mass Dwarf Galaxies and Galactic Metal-Poor Halo Stars”

Jan 5–9, 2014 – Washington D.C., United States – the 223rd AAS Meeting – Poster #246.54

SELECTED EXTERNAL TALKS

Jul 21, 2022 – Roman Virtual Lecture Series, jointly hosted by JPL, IPAC, GSFC, and STScI (*virtual*)

May 31, 2022 – Victoria, B.C. – NRC of Canada’s Herzberg Research Centre Colloquium (*virtual, invited*)

Apr 28, 2022 – Austin, Texas – UT Austin, Cosmos Seminar (*invited*)

Mar 31, 2022 – New York, New York – Flatiron Institute, CCA Lunch Seminar (*invited*)

Feb 24, 2022 – Baltimore, Maryland – JWWebinar for the JWST community, hosted by STScI (*virtual*)

Dec 9, 2021 – Baltimore, Maryland – Joint STScI–JHU Galaxies and AGN Seminar (*virtual, invited*)

Oct 14, 2021 – New York, New York – Columbia University, Astro Seminar (*invited*)

Feb 1, 2021 – Santa Cruz, California – UC Santa Cruz, CGI Seminar (*virtual, invited*)

Jul 16, 2020 – Sussex, England – University of Sussex, Astro Seminar (*virtual, invited*)

Mar 2, 2020 – New York, New York – *WFIRST* Science Jamboree II, *WFIRST* Science Community Meeting

Feb 7, 2020 – Toledo, Ohio – University of Toledo, Astro Seminar

Nov 7, 2019 – Oxford, England – University of Oxford, Galaxy Evolution Seminar

Nov 5, 2019 – Copenhagen, Denmark – Dark Cosmology Centre, Niels Bohr Institute

Nov 1, 2019 – Leiden, Netherlands – Lorentz Center, Leiden galaxy workshop

Sep 17, 2019 – Cambridge, Massachusetts – Harvard-Smithsonian *CfA*, Galaxies & Cosmology Seminar

Sep 4, 2019 – New Haven, Connecticut – Yale University, Galaxy Journal Club

Jul 30, 2019 – Greenbelt, Maryland – *WFIRST* Science Jamboree, *WFIRST* Science Community Meeting

Jun 21, 2019 – New York, New York – *Origins Space Telescope* Community Science Meeting

Feb 15, 2019 – Baltimore, Maryland – Space Telescope Science Institute, Galaxy Seminar

Nov 8, 2018 – San Francisco, California – University of San Francisco, Physics Colloquium

Oct 16, 2017 – Cape Town, South Africa – MPA-UWC Bilateral Workshop

Oct 12, 2017 – Heidelberg, Germany – Max-Planck-Institut für Astronomie, Galaxy Coffee

CONFERENCES & WORKSHOPS ORGANIZED

SAZERAC SIP – Models and Simulations of High-Redshift Galaxies

– *Virtual conference, Oct 27–28, 2021; served as SOC Chair*

– *as part of a long line of topic-focused, all-zoom mini conference series*

Joint CCA/STScI Workshop on “Epoch of Reionization and Early Galaxy Evolution with *JWST*”

- served as one of the five main organizers for the two-part conference series
- Part I at the Space Telescope Science Institute (STScI), Baltimore, MD on Apr 20, 2018
- Part II at the Center for Computational Astrophysics (CCA), New York, NY on Jun 1, 2018

SKA Pathfinders HI Science Coordination Committee (PHISCC) Workshop

- took place at Rutgers University, Mar 16-18, 2015 (served as LOC)

SELECTED INVITED PUBLIC TALKS & OUTREACH ACTIVITIES

Jul 18, 2022 – Oeiras, Portugal – *First Light Observations from the James Webb Space Telescope*

- Distinguished Guest Public Lecture at the professional-level Space Studies Program (SSP2022)
- as part of a nine-week interdisciplinary immersion program hosted by the International Space University

Nov 14, 2021 – Arlington, Virginia – David M. Brown Planetarium – JWST Community Event

Oct 28, 2021 – Annapolis, Maryland – Cafe Scientifique – JWST Community Event

2021 - Present Main host for the popular weekly science series on the social platform “Clubhouse”

- I run the “*Astronomy & Astrophysics*” club that attracted 28.4k+ members since March 2021 debut
- in collaboration with NASA’s Chief Scientist Jim Green, Heidi Hammel, and many experts
- weekly events include an “*Astro Newsroom*” and a topical room “*Ask An Astronomer* – [A^3]”
- typical rooms reach hundreds of listeners, with a peak of 1.6k for our room on Black Holes
- special-topic rooms feature guest experts, notable guests include John Mather on COBE and JWST

NASA’s Webb Instruments Q&A – official public engagement event on [Twitter](#) and [Instagram](#)

- as part of a celebration of Asian American and Pacific Islanders (AAPI) Heritage Month – May 11-13, 2022
- interact with a worldwide audience on Webb and its instruments as JWST subject matter expert

SELECTED PRESS & MEDIA APPEARANCES

NASA’s Early Career Scientist Spotlights

- featured [article](#) showcasing the early career scientists working at NASA Goddard – Jul 20, 2022

Press Release from Multiple Institutions – *Scientists Have Spotted the Farthest Galaxy Ever*

- press release for Harikane et al. 2022 by [Univ. of Tokyo ICRR](#), [Harvard-Smithsonian CfA](#), etc. – Apr 7, 2022
- news articles and commentary featured in [NY Times](#), [Reuters](#), [The Daily Beast](#), [Cosmos Magazine](#), etc.

NASA’s Gravity Assist Podcast – *Season 5, Episode 22: “Using Webb to Trace Galactic Histories”*

- [interview](#) on research and personal story, hosted by Jim Green – Mar 4, 2022

NASA’s Official Webb Blog – *“To Find the First Galaxies, Webb Pays Attention to Detail and Theory”*

- [blog post](#) featuring results from the *Semi-analytic forecasts for JWST* project – Feb 24, 2022

The Independent – *“NASA simulation of the universe will guide future Webb telescope observations”*

- [news article](#) featuring results from the *Semi-analytic forecasts for JWST* project – Feb 25, 2022

USF News Feature Article – *“To Infinity and Beyond”*

- [alumni story](#) reporting on my scientific journey and my role with *JWST* – Oct 20, 2021

VOA - Voice of America Mandarin Service (U.S.-based broadcasting company)

- *JWST* media inquiry as part of live news broadcast, multiple appearances from 2021 to 2022
